LOT 131 - Willet Pot Still Reserve Small Batch Bourbon

Estimate \$ 140-200

Description

Willet Pot Still Reserve Small Batch Bourbon

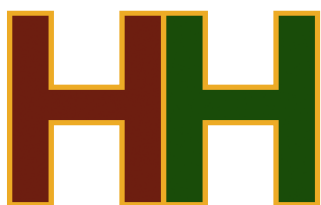

Distillery Bottled, Small Batch Limited Release. Batch No. 21C42.

750 ml / Kentucky, USA / 47% ABV

"Willet's flagship product is their Pot Still Reserve in the wonderfully weird pot still bottle. This super easy going small batch blend represents 30 years of grit and determination in one little bottle. Now that the Willett's have finally got their still up and running, this will likely become a showcase of their older own distilled bourbons in the future. For now it's still a blend of some wonderful sourced whiskies of excellent quality. Easy drinking, but not simple by any means, expect a strong bouquet of candied citrus and sweet dark caramel. The sweet nose and front palate belies a building peppery note and a drier finish driven by oaky spice. Production remains very limited on these, so don't expect it to always be around. The awesome bottle makes for a great gift all year round." - D.O.G
